

What is the Real Estate Portfolio?

The Barita Unit Trust Real Estate Portfolio (REP) is a pooled fund that enables investors to group their savings to earn higher rates. It allows investors to take advantage of investment opportunities in a wide variety of assets, such as real estate, that would not normally be available to individual investors.

The portfolio is **J\$** denominated with investments aimed at commercial and/or residential buildings for lease or sale and may also become financiers of real property developments and or participate in construction or financing of such structures. The portfolio also invests in real estate-linked assets such as equities and corporate notes.

This portfolio is for investors who are investing for the long term (five to ten years) and are interested in seeking a hedge against inflation. Kindly note there is a moratorium of six months' notice required for encashment.

Outlook

The investment strategy of the REP intends to significantly increase its exposure to Real Estate assets over the next 6-12 months through a three-tiered investment focus. The REP's investment strategy will be split across;

- Development Financing - The REP will invest in senior secured debt, mezzanine and equity instruments used to finance the construction of real estate projects.
- Core Real Estate - The REP will be acquiring brownfield properties with an income generation focus.
- Value Added Real Estate - The REP will be acquiring Greenfield or 'fixer-upper' Brownfield properties with significant potential for capital appreciation.

6-year average annual return	5-year average annual return	3-year average annual return	2021 return
2%	0%	1%	-9%

The **Barita Real Estate Portfolio** will allow investors to participate in the profits from large-scale commercial real estate enterprises. They will benefit from:

Diversification - as most investors do not have a sufficient asset base to participate in commercial real estate in any direct sense, this will allow you to benefit from a portfolio of real estate investments, spreading your risk while getting professional management.

Inflation Hedge - Historically, real estate income tends to increase faster in inflationary environments, allowing an investor to maintain real returns.

Historical Fund Performance Year-over-Year Return

Management fee: The Managers may receive a maximum of 3% on the equivalent of fifty million US Dollars (US\$ 50M) and two and a half (2 1/2) percent on the remainder of the deposited Property.

Special Tax Advantages: The income received by way of interests and dividends by the Trustee is received without deduction of tax. Unit holders pay no transfer or Capital Gains tax on sale on their return.
